

## Lab 4H: Finding Clusters

Directions: Record your responses to the lab questions in the spaces provided.

### Clustering data

### The k-means algorithm

### Running k-means

### k-means vs. ground-truth

- Compare the clusters chosen by k-means to the ground-truth. How successful was k-means at recovering the league information?

### On your own

- Describe how the groups differ from each other in terms of how long each group spends playing videogames and doing homework
