Our time.

Directions: Record your responses to the lab questions in the spaces provided.

We've come a long way

First steps first.

timeuse_format specifics

Exploring your data

- **How many observations and variables are there?**

- **What are the names of the variables?**

- **Which row represents YOUR** *typical day*?

How do we spend our time?

- **State and answer two statistical questions based on our** *research question*.

- **Also, state one way in which your personal data is** *typical* **and one way that it** *differs* **from the rest of the class.**

- **Justify your answers by using appropriate statistical graphics and summary tables.**

- **If you subset your data, explain why and how it benefited your analysis.**
